

## Good Ole Rock & Roll Song

The Cowsills

Well, music may come and go  
But there's one thing that's goin' strong  
There ain't nothin' better than  
A good ole rock and roll song

Well if you're feeling down  
Just get yourself together  
With a good ole rock and roll tune

'Cause if you're feelin' lost now baby  
There's something that can be found  
You can find yourself by diggin'  
On a rock and roll song

Just tap out some 4-4  
And ask the man to pour you a drink  
Just let your feet follow you until  
You're in a rock 'n' roll thing

Just turn on the radio  
I said quicker than a click you're  
Gonna hear some rock 'n' roll

Music may come and go  
But there's one thing that's goin' strong  
There ain't nothing better than  
A good ole rock 'n' roll song

Just turn on the radio  
Listen to the jock say  
All you funky children gotta dig  
On that rock 'n' roll

Music may come and go  
But there's one thing goin' strong  
There ain't nothin' better than  
Good ole rock 'n' roll song  
Yeah, there ain't nothin' better than  
A good ole rock 'n' roll song
