

How Can I Make You See

The Cowsills

How can I make you see?
How can I make you see?

Now I've been try'n' to tell you I don't need company
But you can't look past the windows of your eyes
How can I make you see?
How can I make you see?

The light of love is shinin' and I won't disagree
But I need some time to work it out
Now how can I make you see?
How can I make you see?

See that I
I have to find myself before I find somebody else
And when I do, I'll turn to you
But till I do, hang on, but just be ready for a lovin' destiny
I just need time to work it out for myself
How can I make you see?
How can I make you see?

...
