

# Katrina

The Cowsills

I was born in '54, when a category 4  
Called Carol came ashore  
So I'd been there before, through her stomach on the floor  
I could hear that ocean roar

Well I heard it on the news, gotta empty out the town  
There was trouble on the horizon  
You could feel it in the air as it shifted in despair  
We were leaving by the thousands

All the clouds started rolling in around us  
And that's when the night came, that's when the night came, that's when the  
night came

K-K-K-

Katrina, what did you do to me, do to me, do to everyone? (Do to everyone)  
K, K, K, Katrina, what did you do to me, do to me, do to everyone?  
What did you do to me, do to me, do to everyone?

It's not like I was scared, not like in a panic  
But I didn't know what I was in for  
The sky dark above I've never seen the likes of  
The wind moaning at the front door

I heard crashing everywhere, I couldn't see but heard the wind howl  
All around me was the darkness  
With a sound you've never heard, she was blowing out the windows and was tak  
ing out NOLA

The sky sounded out just like an explosion  
And that's when the rains came, that's when the rains came, that's when the  
rains came

K-K-K-Katrina, what did you do to me, do to me, do to everyone?  
K-K-K-Katrina, what did you do to me, do to me, do to everyone? (What did yo  
u do to everyone?)  
K-K-K, Katrina, what did you do to me, do to me, do to everyone?  
What did you do to me, do to me, do to everyone, hey hey hey

K-K-K, Katrina  
K-K-K, Katrina  
Do to everyone  
Do to everyone

I tried to make a call, had to leave a message  
I was lonely and alive  
I went out and walked around  
I was praying that I'd find my way out of here in time

There was trouble in the streets, there was looting, there was shooting  
They were doing anything to survive  
So I thought of Monkey Hill to get a higher view  
But nothing I could find

I got to a levy that I thought could save me  
But that's when the wave came, that's when the wave came
