

# Rescue

The Cowsills

When I get home, got a situation  
You can be in the same room and it's just like I'm not there  
You think I'm gonna leave?  
I say, "no, no, no"  
I work at keeping the lid on so that I don't explode

What is there I can do  
All I want, a love that's so true

I wanna rescue everything  
I wanna keep on lovin' you  
I wanna rescue every little  
I wanna keep our love alive

You push me away then you pull me back  
It gets so tiring being used like that  
I think you're gonna leave  
I say, "no, don't go"  
You might think different now but it's greener in your own front yard

What is there I can do  
When I can't get next to you?

I wanna rescue everything  
I wanna keep on lovin' you  
I wanna rescue every little  
I wanna keep our love alive

You're thinking like me

You're thinking like me and I'm thinking like you  
Everybody's so busy tryin' to figure out what the other's up to  
Now everything in love is all fair game  
But when you change the rules all around  
Well you lose me for a partner  
When awake it's like a breakdown

There's nothing I can say  
I'll keep lookin' for a better day

(I wanna rescue, I wanna rescue)  
I'm gonna keep our love alive  
(I wanna rescue, I wanna rescue)  
Oh, I wanna rescue

Oh now, when I get home and you don't look me in the eyes  
Well I just see through you  
Then I finally realize that you're gettin' out the door  
And never lookin' my way, when I call your name  
Well that's all I want to say

I wanna rescue  
(I wanna rescue)  
I wanna rescue  
(I wanna rescue)  
I wanna keep our love alive  
(I wanna rescue)

Now I want a rescue, yeah  
(I wanna rescue)
