

# That's My Time Of The Day

The Cowsills

The sun comes up  
And awakens the flowers  
And turns the sky to bright blue  
I love the morning  
It's peaceful and quiet  
I love to spend it with you

Anytime I'm with you  
That's my time of the day  
Anytime I'm with you  
Day or night, night or day  
Ev'rything turns out ok

We hear the whistle  
It's twelve o'clock  
And we can go straight up to the sun  
I love the afternoon  
Busy and lively, with you  
It's nothing but fun

'Cause anytime I'm with you  
That's my time of the day  
Anytime I'm with you  
Day or night, night or day  
Ev'rything turns out ok

In the cool of ev'ning  
I hold you so close  
And the stars are shining so bright  
We sit and listen to love all around us  
And then I softly and warmly and gently  
Kiss you good-night

Anytime I'm with you  
That's my time of the day  
...
