

# The Bridge

The Cowsills

There's a bridge in Brooklyn someone sells every day  
And a bridge that crosses over San Francisco bay  
There's a bridge that's old and famous in London town  
It's a bridge they sing about that says it's falling down

There's a bridge that bears the name of George Washington  
And a bridge in Virginia that's a rare and natural one  
There's a bridge for every river in every land  
And a bridge a boy with dreams can build in the sand

But where's the bridge for people who are valley's apart?  
Let's build a bridge (we can build a bridge)  
Let's build a bridge (we can build a bridge)  
A bridge that leads for heart to heart

There's a bridge for every river in every land  
And a bridge a boy with dreams can build in the sand

But where's the bridge for people who are valley's apart?  
Let's build a bridge (we can build a bridge)  
Let's build a bridge (we can build a bridge)  
A bridge that leads from heart to heart
