

Try to Believe It Too

The Cowsills

I was thinkin' about you just the other day
I'm in love, what about you?
I keep asking and all you can say
Is your feelings don't let you

Well could you lie and tell me you love me?
That I'm the only one for you?
Could you tell a lie and try to believe it too?

You see I was tellin' my friends down the street
That you were my baby
And they said they'd sure like to meet you
And I told them maybe

So could you lie and tell them you need me?
That I am the only one for you?
Could you tell a lie and try to believe it too?

Well I have a dream you keep holding me close in your arms
And telling me I'm the only one you'll ever love
But I wake up and find I'm alone in my bed
I cried 'cause I know you're not there
Oh when will you ever love me?

So could you lie and tell them you love me?
That I am the only one for you?
Could you tell a lie and try to believe it too?
Could you tell a lie and try to believe it too?
Could you lie and try to believe it's true?
