

Got It

The Cranberries

With the passing of time
It's the coming of age
Everything in good time
It's just like turning a page
Where did you go?
How did you know?
With the passing of time
It's just like turning a page

Thought that I got it
Thought that I got it
Thought that I got it
And then I lost it all
I forgot it
I forgot it
I forgot it
I thought I knew it all
I got it
All that I got it
All that I got it
And then I lost it all
I forgot it
I forgot it
I forgot it
I thought I knew it all

People wish you decide
In society
Whether we should go
Whether we should be free
Where will we live?
Where will we die?
People wish you decide
In society

Thought that I got it
Thought that I got it
Thought that I got it
And then I lost it all
I forgot it
I forgot it
I forgot it
I thought I knew it all
I got it
All that I got it
All that I got it
And then I lost it all
I forgot it
I forgot it
I forgot it
I thought I knew it's

Ooh-ah-ha
Ooh-ah-ha
Ooh-ah-ha-ha
Ooh-ah-ha
Ooh-ah-ha

Ooh-ah-ha-ha

Think that I got it
Know that I got it
I know that I got it
I did not lose it all
I got it
I know that I got it
Know that I got it
I did not lose it all
I got it
I know that I got it
I know that I got it
I did not lose it all
I got it
I know that I got it
I know that I got it
I did not lose it all

Did not lose it all
Lose it all
Lose it all
Lose it all
