

Where are you gonna go when the night is over?
What are we gonna do when it's time to go?
And what am I gonna do with you?
'Cause we've only got a song by a wonder boy band
We've got a chance, the one dance to understand
That god made Duran Duran for this

So baby don't you turn away (Don't turn away)
Baby when you turn away (I'll fade away)
Baby don't you turn away
I just wanna hear you say "stay"
Don't you leave me alone this way

'Cause you've got a lonely heart telling from the eyelines
And I've got a lonely heart telling from the tie
So I'm gonna wait for you tonight
But we've only got a song by a wonder boy band
We've got a chance, the one dance to understand
That god made Duran Duran for this

So baby don't you turn away (Don't turn away)
Baby when you turn away (I'll fade away)
Baby don't you turn away
I just wanna hear you say "stay"
Don't you leave me alone this way

Hey, what are you gonna do?
'Cause I wanna wait for you
What are we gonna say when the time is right?

Baby don't you turn away (Don't turn away)
Baby when you turn away (I'll fade away)
Baby don't you turn away
I just wanna hear you say "stay"
I just wanna hear you say "stay"
Don't you leave me alone this way
