

## Never The Same

The Crips

Should be kept apart  
At least that's what they thought  
And all your friends on call  
Treat you like the prey they caught  
Now you've cleaned up everything  
So perfect what's the point?  
I never had a problem before I knew...

That things were never the same  
Little things you can't explain  
They had me circling the drain  
But on my own, true to form  
Got over it again  
The sad thing is, I still miss when  
Things were never the same  
When things were never the same...

Still had so far to go  
You avoided coming home  
When they got the order wrong  
It started the dominoes  
Now you seem such a long time gone  
Don't need to know the truth  
I don't even care if it comes from you...

That things were never the same  
Little things you can't explain  
They had me circling the drain  
But on my own, true to form  
Got over it again  
The sad thing is, I still miss when  
Things were never the same  
When things were never the same...

That things were never the same  
Little things you can't explain  
They had me circling the drain  
But on my own, true to form  
Got over it again  
The sad thing is, I still miss when  
Things were never the same  
When things were never the same...
