

# Rainbow Ridge

The Cribs

A seven-year reunion  
Are you where you wanna be?  
Opinions all your own  
Well, naturally  
Still looking for approval  
Gold credits from Horbury School  
Don't mean much in future actually

Sat away from the rest  
I'll be there nonetheless  
Don't look for me  
Don't look for me  
Don't look for me

Back in Montavilla  
The neon reads like cherry whips  
While the crispy witches kisses  
Make me itch  
The city lights of Wakefield  
The constellation of the pig  
Burn bright enough to see me  
In Rainbow Ridge

Sat away from the rest  
I'll be there nonetheless  
Don't look for me  
Don't look for me  
Don't look for me

And I was drawn by the scent  
I tried hard to forget  
Don't look for me  
Don't look for me  
Don't look for me

Sat away from the rest  
I'll be there nonetheless  
Don't look for me  
Don't look for me  
Don't look for me

And I was drawn by the scent  
I tried hard to forget  
Don't look for me  
Don't look for me  
Don't look for me

Please look for me  
Please look for me  
Please look for me
