

[Prelude: The Ambassador]

We want people to become disgusted  
With the separation between God and man  
And we want them to then solely trust Jesus Christ  
And Him alone to restore the relationship  
And to bring God and man back together  
So that they can be one again  
Who? Who eases the pain? Jesus is his name  
Yeah, don't forget 'cause nobody...

[Chorus: The Phanatik]

Nobody does it like the most high God  
(4x)

[The Phanatik]

I gets meticulously reckless when I'm splittin' beats in half  
Fast to take a blood bath so I don't meet with wrath  
Kill the noise boys I bring peace like a yellow ribbon  
Sippin livin' water while my crew be steady fellowshipin'  
Perfect timing, divine appointment, I've got that holy ointment  
I'm anointed and am I'm about to rip this joint kid  
Gots to stick with this ubiquitous always victorious  
Omnipotent and omnipresent King who just be glorious  
There's more to this life, there's got to be  
I can see through the window of eternity and death is the key  
To the doorway this is your day come get a foretaste  
Dinner served, word up yo! soul food and it's gourmet  
Hey! Behind the clouds and the mouths full of mystery  
Their lies a savior who was just dyin to get with me  
He did it! The scars on his wrist purely shows  
And I know cause three days later he surely rose  
It's not your typical mystical ritual or physical tradition  
His mission: put a switch in your spiritual condition  
Grantin' phat mansions, chantin' christian anthems  
Sparked a holy culture and I'm ghost like the phantom

[Chorus]

Nobody does it like the most high God  
(4x)

Nobody does it like Jesus Christ  
(4x)

[The Phanatik]

Check the medley. Life without Christ is deadly I rock steadily  
Eatin up emcees and washin' 'em down with some Tetly  
Like I was an animal a cannibal like Hannibal Lector  
No lecture when I let you see that spiritual inspector  
Pause for a second as I'm checkin out your pulse rate  
Christ just put me in better hands than Allstate  
All great! Just what I needed my Savior bled  
And died on the cross now my sins have been deleted  
Now I'm bound to take on a different form than the norm  
No rehearsin' His third person does work in the storm  
Back to that pulse rate, it's non-existent let's fix it  
There's distance between you and the Savior don't risk it  
Come closer check the host of heaven be rejoicin'

When one soul gets saved they give praise with their voices  
Now mines is gettin' dry from this speech  
I'm crazy thirsty I be cravin' for the blood like a leech  
To each his own let's catch a view from the throne  
Wherever you hang your heart is your home  
Earth or heaven, set your affections on eternal  
Give him reverence and I'll bet he'll get you heated like some thermals  
Turn your internal infernal organs to an altar  
Which can't be altered the King of Kings will never falter  
Standin' firm on the rock of ages  
Free from sin so I don't have to pay the wages  
Let me rephrase this who can taste this cup of wrath  
And face my God face to face raw without a mask  
And grasp this concept and vomit truth from the belly to dispel the  
Words of the most high God somebody tell me  
Are you with me? or am I alone in this?  
Am I not clever or does Christ rule forever with unmeasured holiness  
If you're not down (well) then don't lie  
But if you are then give praise to the most high (uh)

[Chorus]

(4x)

King Jesus Christ. Who's world is this? All praise...

[The Phanatik]

Holy, Holy, Holy O my God what can I say?  
All praise be to Heaven's King YAHWEH  
Lord God you're worthy early in the morning  
You gets glory from dust to dawn and  
Infinite wisdom we'll never grasp it  
You've got eternity outlasted  
Matchless King of all worthy of honour  
To thee we ascribe glory shekinah  
May we from thee never be severed  
I'll sing praise to your name forever  
El Elyon far beyond yet close by  
Nobody does it like God the most high

[The Ambassador(Talkin)]
