

Deliverance

The Crown

Now watch!

The grand deliverance opens up like cuts in the skin
It'll show the roads and take you where
you've never been returning and burning
Feel the barriers explode from the barrel of aggression
It's time to reload
This organic ammo moves faster than these eyes can see
Those bullets kill the distance in just as fast as speed can be
Returning and burning
Feel the barriers explode
From the barrel of aggression
It's time to reload
Black - the ace of shades
Strikes through the veins of the lame
The face of the target is selfdestruction and its tongue speaks your name

Deliverance - The soul explodes
Down on your knees you have some bullets to please
The clips are full and there's a trigger to pull
Down Down Down - And fill another round
The conflict is you - You better take on this fight
From the ballistic wombs, here comes your death in flight
The more you grind your hate the sharper it'll get
You've seen nothing yet
Rising yet falling - The paradox in tribulation
And the field turns bloodred as the colours of frustration
Misanthropic hightime holds the rhythm to your rhyme
But still the hesitation is magnetized to your spine

What will make you cross the line...?

Black - the ace of shades
Strikes through the veins of the lame
The face of the target is selfdestruction and it weaks your name
Deliverance - The soul explodes
Down on your knees you have some bullets to please
The clips are full and there's a trigger to pull
Down Down Down - And fill another round
And so the grand deliverance opens up like cuts in the skin
Now you know it - You've always been here within

Deliverance - The soul explodes
Down on your knees you have some bullets to please
The clips are full and there's a trigger to pull
Down Down Down
And fill another round
Deliverance - The soul explodes
Down on your knees you have some bullets to please
The clips are full and there's a trigger to pull
Down Down Down - And fill another round

Lock, Stock, Deathstruck!
