

# Come Back Clean

The Crystal Method

In the taxi, spit the bad seed  
Spit the bad seed, he came out to testify  
Rip the black jean with his gold teeth  
In the back seat, he came out to testify

I'm not a follower, don't want a phone number  
Don't want a piece of the pie  
Where I land I don't care, I don't need a plan  
One night at a time

Who kicks open every door lately  
He can't stop, he can't stop fighting  
Who says, I won't leave 'til you make me  
He can't stop, he can't stop losing a round

Looks like me, dressed like me  
Just like me  
Looks like me, dressed like me  
Just like me

In the back seat of the taxi, he came out to testify  
In the back seat of the taxi, kept saying, "Who am I?"  
In the back seat of the taxi, he came out to testify  
In the back seat of the taxi, said not to move, he's fine

Don't play with drugs in your bloodstream  
Don't play with bugs for your bad dreams

I'm gonna hold my breath till you come back clean  
Gonna hold my breath till you come back clean  
Gonna hold my breath till you come back clean  
Gonna hold my breath till you come back clean

(Gonna hold my breath till you come back clean)  
In the taxi, spit the bad seed  
Spit the bad seed  
(Gonna hold my breath till you come back clean)  
Rip the black jean with his gold teeth  
In the back seat  
Make it up

Make it up  
Hold my breath  
Make it up, make it up, make it up

Where I land, I don't care, I don't need a plan  
Where I land, I don't care, I don't need a plan  
Where I land, I don't care, I don't need a plan  
Where I land, I don't care, I don't need a plan  
I don't give a damn, I don't need a plan  
I don't give a damn

Don't play with drugs in your bloodstream  
(Hold my breath till you)  
Don't play with drugs in your bloodstream  
(Hold my breath till you)  
Don't play with drugs in your bloodstream

Don't play with bugs for your bad dreams

Don't play with drugs in your bloodstream  
Don't come to us 'til you come clean  
Don't play with drugs in your bloodstream  
Don't play with bugs for your bad dreams  
Don't play with drugs in your bloodstream  
Come back to us when you come clean
