

House Broken

The Crystal Method

Lost inside my head nowhere to go
Up is down my highs are getting low
Bet you know that feeling, that feeling
I can't keep on drinking on my own
Got all these skeletons up in my bones
Bet you know that feeling, that feeling

It cuts through the dark like the edge of a knife
Sharpen the stars and blow out the lights
Let's go... let go...

Listen up
Cuts through the dark...
Sharpen the stars...

Lost inside my head nowhere to go
Up is down my highs are getting low
Bet you know that feeling, that feeling
I can't keep on drinking on my own
Got all these skeletons up in my bones
Bet you know that feeling, that feeling

It cuts through the dark like the edge of a knife
Sharpen the stars and blow out the lights
Let's go... let go...

Listen up
Cuts through the dark...
Sharpen the stars...

Get to light...
Grab the light...
Get to light...
Grab the light...
