

## Treasure

The Cure

She whispers "Please remember me When I am gone from here"  
She whispers "Please remember me but not with tears"  
Remember I was always true,  
Remember that I always tried,  
Remember I loved only you,  
Remember me and smile

For it's better to forget  
Than to remember me  
And cry  
Remember I was always true  
Remember that I always tried  
Remember I loved only you  
Remember me and smile

For it's better to forget  
Than to remember me  
And cry
