

# Trust

The Cure

**Hmi**                                    **D**                                    **G**                                    **D**  
There's no-one left in the world that I can hold onto  
There is really no-one left at all, there is only you  
And if you leave me now, you leave all that we were undone  
There is really no-one left, you are the only one  
**F#mi**                                    **G**                                    **D**                                    **Hmi**  
And still the hardest part for you to put your trust in me  
**F#mi**                                    **G**                                    **D**                                    **A**  
I love you more than I can say. Why won't you just believe?
