

## We Can Find It

The Cyrkle

Everyone is running wild  
Pushing, shoving all the while  
But just missing life  
Trying hard to keep abreast  
Searching to avoid unrest  
Just inviting strife

Love is all that's needed now  
Without it, we may never find  
Peacefulness and contentment  
Like, freedom, freedom brings  
It's so deep within a person's mind  
We can find it  
With love, we can find it

Searching for a mellow star  
Hoping we can look that far  
So just take a chance  
Still unknowing to our eyes  
Right here is where our answers lie  
If we give a chance

Loving high and silently  
Running free and unaware of time  
Sending rays of sunshine  
With messages of peace  
Looking out and getting on with life  
We can find it  
With love, we can find it
