

# Formaldehyde

## The Damnation

Got a brand new reason  
To live through another season  
A bottle is his home  
My puppy embryo  
The teacher calls him Ben  
My nonjudgemental friend  
I know in there everything floats  
Chorus:  
Formaldehyde (2x)  
Keeps our little friend alive  
Formaldehyde  
Happy in his home (2x)  
Everything floats  
We ride the bus together  
Keep him inside my sweater  
The other kids are mean  
They wouldn't understand  
The teacher calls him Ben  
My nonjudgemental friend  
I know in there everything floats  
Chorus
