

Something Good

The Damned Things

Y-E-L-L

All of my friends are going to hell

Y-E-L-L

All of my friends are going to hell

Y-E-L-L

All of my friends are going to hell

Y-E-L-L

All of my friends are going to hell

It grows after it's dead

Kill the beast and make a toy of it

Yeah, I heard you do bad

Old beginning's quiet end

Find what's next and get in front of it

Yeah, I heard you do bad

Stay still tonight

We're off by a half beat

The blue light we once hated now means we have finally made it

Stay still tonight

We're off by a half beat

Yeah, someone told me that you do bad

We had something good and now it's gone

I'm a goddamn coward and you knew it all along

We had something good and now it's gone

I'm a goddamn coward and you knew it all along

You said the stars aligned

But I know those stars are lying

Yeah, I can't do no wrong

Stay still tonight

We're off by a half beat

Thank God I can suffer, oh, I need it like no other

Stay still tonight

Or slip back to half peace, yeah

Someone told me that you do bad

We had something good and now it's gone

I'm a goddamn coward and you knew it all along

We had something good and now it's gone

I'm a goddamn coward and you knew it all along

Y-E-L-L

All of my friends are going to hell

Y-E-L-L

All of my friends are going to hell

Y-E-L-L

(Take me, I'm yours please

Go easy)

All of my friends are going to hell

Y-E-L-L

All of my friends are going to hell

Y-E-L-L

(Take me, I'm yours please

Go easy)

All of my friends are going to hell

Y-E-L-L

All of my friends are going to hell

We had something good and now it's gone

I'm a goddamn coward and you knew it all along

We had something good and now it's gone

I'm a goddamn coward and you knew it all along

Along
