Procrastination

The Damned

Never do today what you can do tomorrow (Procrastination)
If I do too much it'll only end in sorrow (Procrastination)
I'll do it later, I'll do it soon
Wait for the right time, that full blue moon
Time waits for no man but it's only an illusion (Procrastinatio
n)

It takes a lifetime to complete
My procrastination
My procrastination

I'd have done it all by now but there's something in the way (P
rocrastination)
I'll consult a horoscope just to pick the perfect day (Procrast
ination)
My time is precious, I need to hoard it
Here comes my airship, I need to board it
Where's the inspiration, maybe I should forfeit (Procrastinatio
n)

It takes a lifetime to complete
My procrastination
Do it now, or some other time
My procrastination (Come on)

I'd like to see the pyramids at this time of the year
But never quite get round to it and end up staying here

Never do today what you can do tomorrow (Procrastination)
If I do too much it'll only end in sorrow (Procrastination)
I'll do it later, I'll do it soon
Wait for the right time, that full blue moon
Time waits for no man but it's only an illusion (Procrastinatio
n)

It takes a lifetime to complete
My procrastination
Let's do it now, or I'll run out of time
My procrastination (Come on, don't leave it behind now)
My procrastination
Do it now, or some other time
My procrastination
Come on, come on, come on
