

# Testify

## The Damned

Straight from the middle right up to the top  
Eat or be eaten by the cream of the crop  
A smell of burning way down in your soul  
When you taught to steal you're never alone  
And you fall to the ground  
Upon your knees - testify  
Bruised and beaten, broken bones  
Running so hard you can never go home  
You live your life on a torture wheel  
Gripped by a breeze of cold blue steel  
When you fall to the ground  
Upon your knees - testify  
Sail into a sea of hell  
Oh, you do it so very well  
This life you lead will never leave you alone  
Testify - testify  
Down on your knees and testify  
Straight from the middle right up to the top  
Eat or be eaten by the cream of the crop  
A smell of burning way down in your soul  
When you taught to steal you're never alone  
When you fall to the ground  
Upon your knees - testify  
Fall to the ground  
Upon your knees - testify  
Fall to the ground  
Upon your knees - testify
