

## We're So Nice

The Damned

We don't hold back, where there's dispute you'll find us there  
Around the world, when it counts we've got much to share  
Don't we, don't we - We're So Nice!

We feel secure, but accept there's a price to pay  
We trust our masters to watch on us night and day  
Don't we, don't we - We're So Nice!

It takes a lot to make a nation want to fight  
But you can trust the daily news to put us right  
To point us where to go and who has got to die  
On a lie...

We don't hold back, where there's dispute you'll find us there  
Around the world, when it counts we've got much to share  
Don't we, don't we - We're So Nice!
