

## What You Get

The Damnells

Say, what you wanna say but it don't matter  
Do what you wanna do but we don't care  
You haven't anything that we would bother  
You haven't anything that we would dare

That's what you get for being afraid  
That's what you get for staying away

Say, what you wanna say but it don't matter  
Do what you wanna do but we don't care  
You haven't anything that we would bother  
You haven't anything that we would dare

That's what you get for being afraid  
That's what you get for staying away

Go on regret do it anyway  
That's what you get for being afraid
