

Work In Progress

The Dangerous Summer

Tell them all that I'm a work in progress
Pour it out and I will stay out of the way
Fill it up, for what it's worth I'm harmless
Cut me down and I will live with what I take

I'm not saving you for myself
I wanna see you and I wanna say
You're what's keeping me warm
You're what's keeping me safe

Take my hands and keep them busy again
I think I'm losing my whole belief system
I get a lot of problems in my head sometimes
And I keep on forgetting
So take my hands and keep them busy again

Save me a place inside the quiet
I know hate, cause I see it in everyone around
And lately I've been losing truth
Faith, I have been losing too

Save me a place inside the quiet
I know hate, cause I see it in everyone around
And lately I've been losing truth
Faith, I have been losing too

Take it out on all your constant losses
Know it's only just a miracle to face
Even death can bring a man to life
When he sits right up and still nothing tastes the same

Save me a place inside the quiet
I know hate, cause I see it in everyone around
And lately I've been losing truth
Faith, I have been losing too

Save me a place inside the quiet
I know hate, cause I see it in everyone around
And lately I've been losing truth
Faith, I have been losing too

Take my hands and keep them busy again
I think I'm losing my whole belief system
I get a lot of problems in my head sometimes
And I keep on forgetting
So take my hands and keep them busy again

Take
Take my hands
Busy again
Busy again
Keep on forgetting
