

All Night

The Dare

I wake up at noon, put on both of my shoes
Crawl up back into bed, and sleep until the evening
Get on a bus, downtown to blast
Skip on the fare, baby, do you ever get the feeling?

That we both know we're alone
But you can't go home
When they kick us out in half an hour
There's a place I know

LA to New York, New York to LA
All the other states, we could stay up late
Or all night
LA to New York, New York to LA
I want more than fame, hope you feel the same
All night

All night
All night

I can't really rest 'cause my mind keeps racing
And I'm wasted, lying on the bed
I wanna get up, I wanna walk the streets with you
Next to me, we don't have to sleep until

LA to New York, New York to LA
All the other states, we could stay up late
Or all night
LA to New York, New York to LA
I want more than fame, hope you feel the same
All night
My house to your house, your car to my car
Promise that it's nice, you can spend the night
All night
If you're feeling scared, know they're only tears
You will be alright, we can feel alive
All night

All Night
All Night
All Night
All Night

LA to New York, New York to LA
All the other states, we could stay up late
Or all night
LA to New York, New York to LA
I want more than fame, hope you feel the same
All night
My house to your house, your car to my car
Promise that it's nice, you can spend the night
All night
If you're feeling scared, know they're only tears
You will be alright, we can feel alive
All night

All night

All night
All night

(All-)
All night
All night
All night
All night
All night

Oww
All night
