

Good Time

The Dare

Oh, let's have some fun tonight
Oh, let's have some fun tonight
Yeah, I might start a fight
'Cause we're all on the brink of suicide, yeah

Oh, come on, let's turn the lights out
Oh, come on, let's turn the lights out
Oh, come on, let's turn the lights out
Can't bear to see this place when the sun's out

Touch me then say you need me
Fuck me like we were meant to
Be, girl, I got no money
You got no money, we got a good time

Oh, coming in from outside
I'm in the city while you're online
I'm in the club while you're online
I hope my set sounds good outside, baby

Touch me then say you need me
Fuck me like we were meant to
Be, girl, I got no money
You got no money, we got a good time
Touch me then say you need me
Fuck me like we were meant to
Be, girl, I got no money
You got no money, we got a good time

Yeah

Touch me then say you need me
Fuck me like we were meant to
Be, girl, I got no money
You got no money, we got a good time
