

# You're Invited

## The Dare

You play the drums, I'll write the lyrics  
You bring the soul, I'll bring the spirit  
You got a demo? I wanna hear it  
You got that address, I think I'm near it

You're invited, you're invited  
You're invited, you're invited  
You're invited, you're invited

Let's make a baby in a Mercedes  
You lost the rubber, let's make another  
It's revolution and you're invited  
It might get violent, dance through the silence

You're invited, you're invited  
You're invited, you're invited  
You're invited, you're invited  
You're invited, you're invited

You're invited to my party  
You wanna stop it, you and what army?  
You and your people  
You just make me bored  
You need some guidance  
You're still invited

You're invited (You're invited), you're invited (You're invited)  
You're invited (You're invited), you're invited (You're invited)  
You're invited (You're invited), you're invited (You're invited)  
You're invited (You're invited), you're invited (You're invited)

(Ooh-oooh-oh, oh, oh, oh, oh)  
(Ooh-oooh-oh, oh, oh, oh, oh)  
(Ooh-oooh-oh, oh, oh, oh, oh)  
(Ooh-oooh-oh, oh, oh, oh, oh)

You need a smoke break? I wanna smoke too  
You only smoke reds, I only got blues  
You say it's okay, you're trying new things  
Well I can light it 'cause you're invited

(Ooh-oooh-oh, oh, oh, oh, oh)  
(Ooh-oooh-oh, oh, oh, oh, oh)  
(Ooh-oooh-oh, oh, oh, oh, oh) (You're invited)  
(Ooh-oooh-oh-) (You're invited)  
(You-re-re-re)
