

Any Time You Want Love

The Dave Clark Five

Any Time You Want Love

When you're feeling blue
All you've gotta do is call me

Any time you want love, I'll be around
Any time you want love, it can be found in me

I'm tellin' you
Every time you go
There's something you ought to know

Any time you want love, I'll be around
Any time you want love, it can be found in me

If you want I'll prove it to you
Then you'll know how much I love you, yes I do

Now I've said it all
Just remember these few words

Any time you want love, I'll be around
Any time you want love, it can be found in me

If you want I'll prove it to you
Then you'll know how much I love you, yes I do

Now I've said it all
Just remember these few words

Any time you want love, I'll be around
Any time you want love, it can be found in me
It can be found in me
It can be found in me
It can be found in me
