

Bernadette

The Dave Clark Five

Bernadette
Please don't let
The world pull us apart
If you do, you know
It will only break my heart

If you really care
If you want to share
All the dreams I'm dreamin'
Let me know, please let me know

Bernadette
I can't get
You out of my mind
And I hope you will stay
And always be mine

You will always be
A special part of me
For the things you do and say
I know are meant for me

You will always be
A special part of me
For the things you do and say
I know are meant for me
