

I Am On My Own

The Dave Clark Five

She doesn't want me anymore
She just walked straight right out the door
I still believe she's here with me
Maybe I'm blind I just can't see

What's the use in dreamin' dreams
She has gone and now it seems I am on my own

I walk the streets still in a dream
But she is nowhere to be seen
People before me, some behind
But what I seek I'll never find

What's the use in dreamin' dreams
She has gone and now it seems I am on my own

She doesn't want me anymore
She just walked straight right out the door
I still believe she's here with me
Maybe I'm blind I just can't see

What's the use in dreamin' dreams
She has gone and now it seems I am on my own
