

I Know

The Dave Clark Five

I know, that you're leavin' me so bad
I know, that you're goin' far away
Cuz all the love we had, the things we shared
Are for another
You've been so mean and cruel, but that's not all
You cheat your brother

I know, that you have stolen all my pride
I know, that I've been taken for a ride
The times you talk so tough
And told me that
There was no other
I feel so cheated now
But here I am
A lonely lover

The love we had seems only yesterday
The love we had as if we used to say
But pretty soon you're gonna walk away
From me

I know, that you're leavin' me so bad
I know, that you're goin' far away
Cuz all the love we had, the things we shared
Are for another
You've been so mean and cruel but that's not all
You cheat your brother

I know, I know, I know know know
I know, I know, I know know know
I know, I know, I know know know
