

# I Want You Still

The Dave Clark Five

I want you still  
Though you don't want me now  
I want you still  
It has to be right now  
When I turn around,  
I see you laughing (See you laughing)  
Takes all kinds to make a one  
I wonder if they're laughing at me

I want to know  
If there's a change in you  
I want to know  
If you want me with you  
Not too hard to say I love you (Say I love you)  
Happiness when you are hear  
Seems for me too hard to find

I want you still  
Though you don't want me now  
I want you still  
It has to be right now  
When I turn around,  
I see you laughing (See you laughing)  
Takes all kinds to make a one  
I wonder if they're laughing at me

I want you still [x2]
