

Long Ago

The Dave Clark Five

Stars shine above
The time is right for love
But where are you
The girl I knew
Long ago

I hear our song
How could our love go wrong
Where did you go
The girl I knew
Long ago

Remember all the love we shared
And all the times you never cared

Soon there'll be rain
And with it comes the pain
Of losing you
The girl I knew
Long ago

Remember all the love we shared
And all the times you never cared

Soon there'll be rain
And with it comes the pain
Of losing you
The girl I knew
Long ago
