

Looking In

The Dave Clark Five

Last night you told me that you're worried
'Bout any other thing
You said that soon it's gonna work out
And I won't be on the outside, looking in

But you went away from me
And I'm still on the outside, looking in

Some people say you're gonna need me
When you're far away
They say that soon you're gonna come back
And I won't be on the outside, looking in

So till you come back to me
I'll stay on the outside, looking in

Looking in love
Oh looking in love
Just looking in love
Looking in love
