

We'll Be Running

The Dave Clark Five

If you wanna save yourself some time
One thing I gotta see
If you see us walking down the street
You better not look our way

'Cause we'll be running, running, running
We can't wait around
Yeah we'll be running, running, running
You'll be wasting time

Don't you even know she doesn't need you
That's what I gotta see
She's the only one that tells no lies
You don't have to look that way

'Cause we'll be running, running, running
We can't wait around
Yeah we'll be running, running, running
You'll be wasting time

Don't you even know she doesn't need you
That's what I gotta see
She's the only one that tells no lies
You don't have to look that way
