

Shadows

The Dayton Family

* I'm ready to tell you my secret now
I see dead people, but they don't know that their dead
And sometimes when it get real cold, that means they're mad

Can't goto sleep I hear a beat it sounded just like feet
Jump off my seat ???????
I seen this shadow pullin cattle from my early battle
I seen this snake up in my shoe and all I heard was rattle
Picked up the phone and it exploded like a f**king bomb
I'm seeing shadows biting me like it was Jeffery Dahm
So many clicks, so many crews, trying to blow my fuse
So many shadows in my yard that I feel abused
I'm hearing voices in my head and I can see a tread
I'm seeing scores of a pimp and he smellin dead
Slipped on my slippers, the ones with the chromed zippers
Knocked down a shadow in my room, all these Jack the Rippers
I fight with tigers, these shadows say their Michale Myers
Just like Jack Mickleson played the ?? I hear my neighbors driers
All this pain in my brain make me go insane
I'm hearing chains, and tracks, and running trains
Alot of these soldiers in my kitchen with they bloody blades
No hands, no knives, Just bodies and the hand grenades
I started ducking, them soldiers started bustin at me
Flashbacks when I was 2 father hollered at me
Hand whistles and clicks from pistols got me live annoyed
Past beef won't let me sleep I look like sleepy Froyd
All these songs in my head and can't nobody tatttle
Last night I killed 2 more, here comes another shadow (echo)

We all walknig in the valley of the shadow of death
So concentrate on your family friends and loved ones
Because you never know when there's a shadow

Shadooooow, Every time I turn around theres a shadooooow
Though I walk through the valley of the shadooooow
Lifes to short to take for granted fearing shadooooow
I can't take the pain I'm feeling from these...

????? and I thought I felt somebody watching
Opened my door nobody there I swear I hear them knocking
Cock back my pistol cuz' I'm paranoid and in zone
Somebody said whip me, but I know I'm home alone
Jumped in the shower, to wash away this eary feeling
Walked out my bathroom seeing shadows dancing on the ceiling
Put on my clothes, and smoked a cigeratte, and brushed my grill
Now pitbull puppies barking at me so what I know ain't real (Dogs barking)
Turned on my T.V. watching CNN, I heard a BOOM
2 shadows having sex, I hear them f**king in my room
It shakes my residents the only trace a gust of wind
Too hard for wind, a shadows what it must have been
Ain't no such thing as ghosts, I'm tripping dawg and I know it
Walked towards my car, the horn went off, a shadow had to blow it
I need a drink to think and sort out all these wierd events
I killed a man, my lifes been haunted ever since
I can't believe the shit I'm seeing turning up my bottle
I keep my eyes and I'll rip you, I swear I'm being followed
Can't goto sleep at night unless I take a sleeping pill

Reflections in the mirror, f**king with my head for real
I never thought there was nothing wrong with how I think
Until my momma told me Leg, go see a shrink
All these songs in my head and can't nobody tatttle
Last night I killed 2 more, here comes another shadow

I thank God every mourning that I wake up
Cuz you never know when your gonna walk
out your front door and get murdered in your driveway
So let me tell you this keep your mind on your family, friends, and foes
Cuz most niggas is hoes, and they shoot you cuz you bawlin more than they is
So stay out them holes in the warclubs
Show love to your family and friends
And get your ass.....f**k'em
