

## From a Window

The dB's

Wine in plastic cups  
Listening to the wind  
I will tell you everything  
Where do I begin  
Some would say we were friends  
I won't make that mistake again  
I won't make that mistake again

Careless at the start  
Cautious at the end  
Ives was on the stereo  
I remember when  
Some would say what happened  
I won't make that mistake again  
I won't make that mistake again
