

Send Me Something Real

The dB's

You're floating out of reach
Wave crash across the beach
That stretches to the end of time

I try to catch your hand
Before the seraphim
Can pull you far away from mwe

Send me something real
Cause I don't remember how it feels
To be free and pure

Carried away by night
You lose your appetite
If you look left or right you're lost

Who would have ever thought
The way we've all been taught
Would be fantastically revealed

Send me something real
Cause I don't remember how it feels
To be free and pure

And it seems like an eternity
It seems like an eternity
Since you were here with me

Send me something real
Cause I don't remember how it feels
Send me something real

Cause I don't remember how it feels
To be free and pure
And I've got to find that door

And it seems like an eternity
It seems like an eternity
Since you were here with me
It seems like an eternity
