

All The Same

The Dead Daisies

She like the money, what can I say?
She drink that whiskey, but loves champagne
She always rolling and can she ball
That woman pushy cause she wants it all

If I deny her anything be digging my own grave
Ain't no rhyme or reasoning, she always gets her way
Ooh, she always gets her way

I can't change her or debate her
And I sometimes love and hate her
Can't explain her, no I can't tame that girl
But I want her all the same

Mistakes are plenty, I take the blame
She got me talking, don't need cocaine
She never give in, but likes to give
Won't be forgotten, and that's just how it is

She blows her top like gasoline, and takes me down in flames
Ain't no lose or draw with her, she always gets her way
Ooh, she always gets her way, yes she does

I can't change her or debate her
And I sometimes love and hate her
Can't explain her, no I can't tame that girl
But I want her all the same

I can't change her or debate her
And I sometimes love and hate her
Can't explain her, no I can't tame that girl
But I want her all the same

I can't shake her never break her
But I love to love and hate her
Can't explain her, no I can't tame this bitch
But I want her all the same
