

Devil Out Of Time

The Dead Daisies

Got something to say, and I don't think that you'll like it
You pushed me again, and its one too many times, yeah
Be careful my friend, with the words that you are choosing
Now there's nothing to gain, and I'm not afraid of losing (that
's right)

Goodbye, its so long overdue
I've been trying, while you're crying the blues
So sick, of your words so malign
You helped make up my mind
And you're a devil out of time

You don't know the truth, cause you're a liar and it suits you
Such a snake in the grass, but your karma's got a bite too

Goodbye, I'm so over you
Trying, while you're screaming the blues
So sick, of your words so malign
And now I've made up my mind
Cause you're a devil out of time
That's right
Piss off

Goodbye, has been long overdue
Trying, you were crying the blues
So sick, your life's so malign
Now I made up my mind
You're a devil out of time... that's right... ugh, eat it
