

Hypnotize Yourself

The Dead Daisies

The sun it is risin'
The dawn masquerade
Now I'm realizin'
That I'm lost in the shade
I see the keeper
So evergreen
Hear the sigh of the weeper
All alone by the stream

Hypnotize yourself
You're living in a daydream
Hypnotize yourself
No shadow in the moonbeam
Hypnotize yourself
You're steppin' on a high wire
Hypnotize yourself
You're walkin' in the street fire

I wait for the giver
The hour is late
I come to deliver
To orchestrate
I break for the steady
As I open your eyes
This revelation
Oh you memorize

Hypnotize yourself
You're living in a daydream
Hypnotize yourself
No shadow in the moon beam
Hypnotize yourself
You're stepping on a high wire
Hypnotize yourself
You're walking in the street fire
You're walking in the street fire

Hypnotize yourself
You're living in a daydream
Hypnotize yourself
No shadow in the moon beam
Hypnotize yourself
You're stepping on a high wire
Hypnotize yourself
You're walking in the street fire

Hypnotize yourself
You're living in a daydream
Hypnotize yourself
You're walking in the street fire
