

# Join Together

The Dead Daisies

When you hear the sound a coming  
Hear the drummer drumming  
I want you to join together with the band  
We don't move in any 'ticular direction  
Make no collection  
Won't you join together with the band

Do you really care  
What you eat or what you wear  
We want you to join together with the band  
There's a million ways to laugh  
And every one is a path  
Come on and join together with the band

Everybody join together  
We want you to join together  
Come on and join together with the band  
Join together  
Come on and join together  
We want you to join together with the band

You don't have to play  
You can follow or lead the way  
We want you to join together with the band  
We don't know where we're going  
But the season's right for knowing  
We want you to join together with the band

It's the singer not the song  
That makes the music move along  
I want you to join together with the band  
This is the biggest band you'll find  
We're so deep and we're wide  
Come on and join together with the band

Join together  
Join together  
Everybody join together with the band  
Join together  
We want you to join together  
Come on and join together with the band
