

Resurrected

The Dead Daisies

Stare in the mirror lines on my face yeah
I wonder where the time has gone
It's been a long hard road out from the grave, but I keep a moving on
I been up, down, turned around, kicked hard to the ground,
Keep a coming back again

From the ashes, from the flame
I'm here to light the fire again

I'm back, Resurrected
I'm back, Resurrected

I'm a man on a mission, you better listen
Ain't nobody gonna stop the show
Riding high on my horse, ass in my saddle
All revved up ready to go
I've had nine lives, every time, roll the dice, pay the price
I do it all again

Another day, another dance
From the dead, a second chance

I'm back, Resurrected
I'm back, Resurrected

I'm back, I'm back, I'm back, I'm back
I'm back, I'm back, I'm resurrected

I'm back, Resurrected
I'm back, Resurrected

I'm back, Resurrected
I'm back, Resurrected
