

## Sleep

### The Dead Daisies

It comes every night, heavy are chains  
That will hold me tight, to a day that is over  
Begging you please, unlock the door  
Where my slumber waits for me

If I could only sleep, I'd finally be awake  
Awake to see a dream of you and I  
Then let my days just die  
If I could sleep, I'd lay it all to rest  
The love that is forever dead and gone  
If I could only sleep

I'll never know, how to cut all my lines  
And just let it go, another day now I'm older  
Lie in the sheets, just me and mind doing time  
But time is but a thief

If I could only sleep, I'd finally be awake  
Awake to see a dream of you and I  
Then let my days just die  
If I could sleep, I'd lay it all to rest  
The love that is forever dead and gone  
If I could only sleep

If I could only sleep, I'd finally be awake  
Awake to see the dream of you and I  
Then let my days just die  
If I could sleep, I'd lay it all to rest  
The love that is forever dead and gone  
If I could only sleep...
