

Talk To Me

The Dead Daisies

Your love it's a modern ball and chain
You shoot up in the bathroom baby your insane
Good luck if you make the morning sun
Ya better wake up before you come undone

It's tricky when ya backbone slips
Will kill you honey if you don't get a grip
Been living life in the fast lane
And you'll soon be certified
Cause you're getting crazy

Why won't you talk to me
Baby talk to me
Talk to me

Sometimes a friend is all it takes
To be there right beside you in your darkest days
And if you feel your backbone slip
I'll be the one that's there to kiss your lips
We're all trying to ease your pain
You got a family start again

Come on and talk to me
Yeah, talk to me, baby talk to me

Oh... come on home child
Baby its not too late
You been gone so long
Come on home, come on home

It's tricky when ya backbone slips
Will kill you honey if you don't get a grip
Been living life in the fast lane
And you'll soon be certified
Cause you're getting crazy

Why don't you come on home
Talk to me, why won't you talk to me
Come on home
