

What Goes Around

The Dead Daisies

Time has a way of letting you see the truth
Then comes the day when fate returns on you

Before the writing's on the wall
Before the final curtain call
Here's a message for us all

We're falling way outta line
We gotta watch our behind
It's just a matter of time
What goes around comes around
So if we're cruel and not kind
And if we nickel and dime
It's just a matter of time
What goes around comes around

Oh mirror
Tell me how I've been
Father forgive me
Forgive me all my sins

Before you're down in a hole
Before the karma takes its toll
Before the devil steals your soul

We're falling way outta line
We gotta watch our behind
It's just a matter of time
What goes around comes around
So if we're cruel and not kind
And if we nickel and dime
It's just a matter of time
What goes around comes around

We're falling way outta line
We gotta watch our behind
It's just a matter of time
What goes around comes around
So if we're cruel and not kind
And if we nickel and dime
It's just a matter of time
What goes around comes around

What goes around comes around
What goes around comes around
