

# Make It Witchy

The Dead Milkmen

Cadillac squeals trunk full of pills  
Lights out tonight in the Hollywood Hills  
Over the fence, I help myself  
The time is nigh to share the wealth

I don't care whatcha do  
But I care how you do it  
We got a plan  
So let's get to it  
Whatever you do you better make it witchy  
Whatever you do you better make it witchy

Back at the shack gonna have some fun  
Dance to Ambassador21  
Back at the shack gonna blast the Ramones  
Break out the maps to the movie star's homes

I don't care whatcha do  
But I care how you do it  
We've got a plan  
So let's get to it  
Whatever you do you better make it witchy  
Whatever you do you better make it witchy

Diving through your window for a midnight snack  
Raid the freezer and then drive back  
Diving through your window for a midnight snack  
It's enough to give you a heart attack  
Diving through your window when it gets late  
Feelin' the need to redecorate  
Sofas to move and lamps to break  
What a surprise when you awake

Back on the road for a few more thrills  
Lights out tonight in the Hollywood Hills  
Over the fence with my bag of tricks  
The time is nigh to kick against the pricks

I don't care whatcha do  
But I care how you do it  
We've got a plan  
Let's stick to it  
Whatever you do you better make it witchy  
Whatever you do you better make it witchy  
Do what you do just make it witchy  
Whatever you do you better make it witchy
