

Acceptance

The Dead Rabbits

(I know it sounds cliché)
(I can see the light)
(I can see the light)

All the paths that we take
And choices that we make
(Where will you go at the crossroads)
I wanna be a better person
Wanna be a better
(Version of my, version of myself)

I know it sounds cliché
But I can see the light
I hate the way I used to be
I'm changing my life
The devil on my shoulder
I've been walking blind
I hate the way I used to be
I'm changing my life

Acceptance is the answer to all my problems now
Must be a higher power why I'm still here now
It's a matter of perspective and I've come so far
I'm counting all my blessings, remembering my scars

I know it sounds cliché
But I can see the light
I hate the way I used to be
I'm changing my life
The devil on my shoulder
I've been walking blind
I hate the way I used to be
I'm changing my life

Took a look in the mirror!
Took a look in the mirror!
I'll turn it around
Around
Around
Around
Around
Around

I know it sounds cliché
But I can see the light
I hate the way I used to be
I'm changing my life
The devil on my shoulder
I've been walking blind
I hate the way I used to be
I'm changing my life
My life
I'm changing my life
