

# Artificial Gods

## The Dead Rabbits

Save me cause I know I know  
I'm fading  
Gotta kill the program

Digital conscious hollow faith  
The artificial gods that we create  
Plastic hearts wired veins  
Superficial authenticity

Save me cause I know I know  
I'm fading  
Gotta pull the plug

Lies feed me lies feed me lies  
Everyday another new piece of news  
And we believe the headline  
Sick synthetic hypocrites try to recreate god  
With an artificial mind

A a a a a a artificial  
A a a a a a artificial  
A a a a a a artificial  
A a a a a a artificial gods

Programmed wisdom temples of code  
Algorithmic prayers we reap what we sow  
Flesh and steel circuits and chains  
Artificial integrity

Save us cause I know I know  
We gave up  
Cost of convenience

Likes gimme likes gimme likes  
Everybody's got a brand got a cult got a new religion  
Hungry for power and fame but we all bow down to our artificial gods

A a a a a a artificial

Exterminate!  
Exterminate!
